OCRUG Hackathon 2019

May 18 — 19, 2019
Paul Merage Business School • University of California, Irvine

Twitter: oc_rug

Goals of the Hackathon

- The focus is on education & teamwork
- Competition is used to frame the event, give a concrete goal to work toward
- Please freely share your experience and expertise, help others when you can
- What might success look like?
 - You've tackled a real world data set, and done something interesting with it
 - You've learned something new about R and data analysis
 - You've connected with others and grown from the experience

Rules

- All participants must abide by our code of conduct
 https://github.com/ocrug/hackathon-2019/blob/master/code-of-conduct.md
- All work presented by the teams must be based upon work performed at the hackathon
- Feel free to help others, even across teams
- Please be courteous of the facilities, handle your trash, etc.

Awards Categories

- Best Insight
- Best Visualization
- Best Model
- Most Helpful Person

More info on the judging guidelines:

https://github.com/ocrug/hackathon-2019/blob/master/admin/judging_guidelines.md

Winning teams will be cordially invited to present their work at the May OCRUG Meeting
Tuesday May 28th @ 6:30 PM

Team Formation

- Everyone needs to be on a team with 2 5 people
- We encourage teams to have 5 people
- For teams already formed with less than 5 people, consider bringing additional people in

For Participants that need a team & existing teams that need more members

- We'll divide the room into three sections, one for each of the award categories (insight, visualization, model)
- Go to the section that interests you most
- Group up with the people within your section (we'll help out too if you need it)

Presentations

- All teams will submit a short 2 3 page PDF summary of their findings
- Teams will have 5 minutes to present their work
- The panel of judges will review the work and decide on the awards
- Try to have a good idea about what you'll be presenting by Saturday night!

Logistics

- Feel free to come and go as you like.
 IMPORTANT: Building door locks at 10 PM
- We have several breakout rooms if you'd like a quieter environment, the patio if you'd like some air
- Please be mindful of others in the building
- Let us know if you see anything that might need our attention
- The Slack channel #hackathon-2019 will be used for announcements and you are encouraged to post questions / comments

Logistics

- Pull the latest Hackathon GIT repo before starting.
- There is a ton of information about the Hackathon. Check out the README
- Updates to the Hackathon repo will be made throughout the event
- There will be a vote for the Most Helpful Person. Votes must be in by 2PM on Sunday.
- Meals will generally be on the patio.
- Coffee, tea, water, soda and snacks will be available throughout the event
- Please fill out the post-event feedback survey
